Part II.	Problem Information	

Details of Problem:

On September 8, 2026, a delivery was made to Mr. Jun Quitevis of Ilocos Sur, consisting of a total of 10 cases: 2 cases of Extra Large, 2 cases of Medium, 3 cases of Small, and 3 cases of Extra Small eggs. Four days after the delivery, Mr. Quitevis reported that 32 pieces of medium eggs from the two cases had developed an unpleasant odor and had turned dark in color. The condition was observed and reported by the customer during his inspection of the eggs.

Based on the Dispatch Form, the eggs were three days old at the time of delivery. When the customer discovered the nonconformity, the eggs were seven days old and had developed an unpleasant odor and dark color.
